Some of us doodle all the time, others only occasionally. And there are people who say that they never do – though a closer look at the notepad next to their telephone, this week's shopping list or the empty envelope may tell a different story. To the trained eye, every little scribble we make **betrays** our hidden desires, strengths and weaknesses. What do our doodles mean? Expert Gloria Hargreaves reveals what lies behind the lines we draw and the scribbles we make in idle moments.

A large, simply outlined bird shows a clear thinker with a very demanding conscience and definite ideas of right and wrong. A flying bird signifies someone who is tolerant and broad-minded. High flying gulls are the sign of a relaxed, easy going person.

Boxes piled neatly on top of one another show a person who is tidy and well-organised. Boxes within boxes shout “let me out” and suggest that you are feeling trapped.
